THE PROFESSIONAL WAY TO BIND YOUR LUXURY LAY-FLAT PHOTOBOOK

- ▶ *High-end finishing*
- ▶ *Affordable capital investment*
- ▶ *Low operational costs*

Ante System Photobook binding

Ante system by Unibind

The **ANTE machine** offers all the functionalities you need to produce professional finished photobooks.

You can produce photobook blocks up to **20" x 20" / 50 x 50 cm** and up to **65** high quality photo print pages.

Your benefits:

The **ANTE** machine guarantees a high quality and long lasting binding of all the pages of the photobook, allowing easy browsing through the Lay-Flat pages.

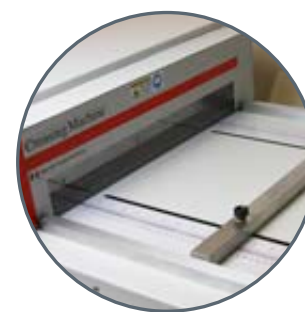

- Only air pressure needed
- Binding process does not affect color or quality of the prints
- Worldwide availability of the machines and consumables

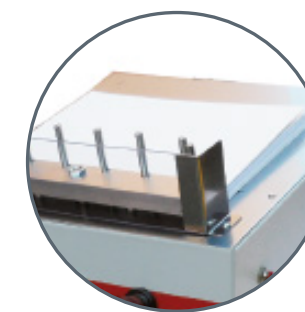

Accessoires

-  Gauzed paper
-  Glue to bind
-  Chapter
-  Imit-Line

Step by step

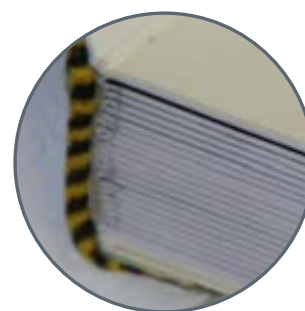

The **ANTE creasing device**, allows precise creasing and the crease has a special "U" shape.

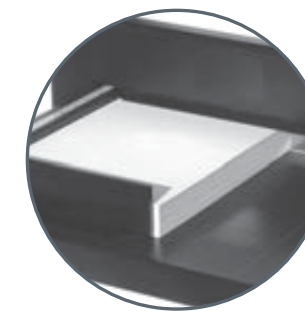

With the aligner unit, the creased pages and mirror sheets are combined through the special **cardboard glue sheets**.

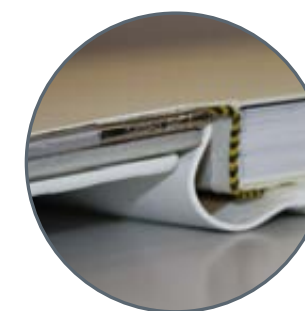

Fixate the book block with the **pneumatic press unit**.

Finish the book block spine with the **gauzed paper** and **chapter ribbon**.

Cut the book block to size.

Join the book block and high-quality cover.
